

How Ehud Barak Pulled Off 9-11

by Chris Bollyn

Ehud Barak, Israel's defense minister...is, in my opinion, the key suspect of being the mastermind of the false-flag terror attacks of 9-11. I am providing this brief article to explain how I think he did it.

Ehud Barak (Brug) was born at Kibbutz Mishmar Hasharon on 12 February 1942. He enlisted in the Israeli Army at age 17, became a career army officer, and helped to found and lead the elite Sayeret Matkal covert operations commando unit. After serving as head of Israeli Intelligence and Central Command during the 1980s, Barak was appointed IDF Chief of Staff, in 1991. Barak was Israel's minister of defense during Israel's assault on the Gaza Strip in 2008-2009. Based on the report of the [U.N. Fact Finding Mission on the Gaza Conflict](#), written by Justice Richard Goldstone, Barak is legally responsible for a host of war crimes committed during that assault. The United States (and all other nations who have ratified the Geneva Conventions) are obliged to arrest Ehud Barak based on the evidence and findings presented in the Goldstone report.

“And how can it be profitable for a person's immorality to go unnoticed and unpunished? The consequence of a criminal getting away with his crimes is that he becomes a worse person.” - - Socrates in Plato's *Republic*, "Happiness and Unhappiness"

Socrates' point that unpunished criminals become worse is very much the story of modern Israel. The most serious criminals of the Zionist state have never been punished in any meaningful way by the international community - or the United States. This *laissez faire* attitude regarding Zionist criminals has only enabled and emboldened the most unscrupulous and aggressive criminals to rise to the top of the Israeli government, where they sit today. The criminal audacity of Israel's leaders is, however, simply not sustainable for the long term because their rampant criminality endangers the Zionist state, its citizens, and even its supporters.

Zionist Jews and Israelis living in America, for example, may find themselves in a very uncomfortable position when millions of Americans realize that Israel and its supporters are behind the mass murder of 9-11 and the cover-up of the truth, as **Dr. Alan Sabrosky, former director of the Strategic Studies Institute of the U.S. Army War College, has repeatedly [warned](#).**

“It is one hundred percent certain that 9-11 was a Mossad operation - period.”

It seems to be only a matter of time before this uncomfortable situation becomes a reality. It should be noted that the Israeli prime minister at the time of the attacks was Ariel Sharon, a Zionist extremist and terrorist who believes that American Jews (actually all Jews) should live in Israel. Sharon had a dream that one million American Jews would emigrate to Israel, while in reality more Israelis have chosen to live in America. Was 9-11 designed to force Jews to move to Israel?

*Israeli Defence Minister **Ehud Barak** (left) talks with Minister of Pensioner Affairs **Rafi Eitan** as Prime Minister Ehud Olmert (center) waits to start the weekly cabinet meeting May 25, 2008 in Jerusalem. Eitan is wanted by the FBI for his role as the spymaster of Jonathan Pollard. Olmert was in New York City on 9-11 on a visit that has been kept secret. These three men know very well who was behind the terrorism of 9-11 - and it wasn't Osama Bin Laden and his band of twenty thieves.*

Ehud Barak was prime minister of Israel from July 1999 until March 7, 2001, when he was replaced by Ariel Sharon. I attended an event at the Chicago campus of the University of Illinois where both Barak, then prime minister, and Sharon were involved shortly before the election that brought Sharon to power. The fact that Barak and Sharon had travelled to Chicago together illustrated the utter fakeness of their rivalry.

Previous positions held by Barak include Head of Defense Planning and Budgeting, Head of the Israeli Intelligence Community, Chief of the General Staff of the Israel Defense Forces (IDF), Minister of the Interior in Prime Minister Itzhak Rabin's cabinet, Minister of Foreign Affairs in the Shimon Peres cabinet, and Labor Party Chairman. If Israel is involved in 9-11, as Dr. Alan Sabrosky says (and which the evidence strongly indicates) Barak certainly knows all about it.

When Sharon assumed power in March 2001, Barak came to America. He supposedly came to the United States to work as a special advisor for Electronic Data Systems and as [a partner](#) with SCP Partners, a Mossad-run private equity company focused on "security-related" work - but this was merely his cover. His real assignment was to oversee the terror attacks of 9-11. As a partner with SCP Partners Barak was well placed to supervise the false-flag terror operation. The complex false-flag terror attacks of 9-11 required that the mastermind of the operation be in the country to manage the critical details.

One of the key aspects of 9-11 that Barak needed to arrange was the production and application of an advanced form of super-thermite, an extremely powerful explosive produced using nano-technology. In 2001, SCP Partners happened to have a suitable company in their portfolio, a private company called Metallurg Holdings, Inc., which has its office in Wayne, Pennsylvania. Today, SCP has another company called [Advanced Metallurgical Group](#), N.V. (AMG) in its portfolio. AMG and Metallurg actually share the same phone number and address at 435 Devon Park Drive in Wayne. [SCP Private Equity Partners L.P.](#) and its management company named [Safeguard International](#), which controls the metallurgical subsidiaries, are also both [based](#) at this address. AMG/Safeguard International have several [subsidiaries](#), including one that specializes in the production of atomized aluminum (a crucial component of super-thermite) and others which manufacture specialized coatings of nano-composites.

Through these companies, **SCP Partners, which included Ehud Barak from 2001 until 2007, clearly had the capability in 2001 to produce nano-composite explosives like the super-thermite used to**

pulverize the World Trade Center on 9-11. There are very few companies or countries in the world that have the capability to manufacture super-thermite, but Ehud Barak's company did - in 2001. Osama Bin Laden and Al Qaida, on the other hand, could not have anything to do with the super-thermite found in the dust of the pulverized Twin Towers. The government version is a pack of lies designed to excuse a pre-planned war of aggression against Afghanistan. Ehud Barak was the first person to call for the U.S. to invade Afghanistan, which he did only hours after the attacks.

Rafi Eitan, the octogenarian Mossadnik who ran a spy operation against the United States using Jonathan Pollard, fled to Israel after Pollard was caught in 1985. Eitan was then offered the position as head of state-owned Israel Chemicals Corporation, which also has production and manufacturing facilities in the United States. In 1978, when Israeli intelligence began planning the false-flag terror operation of 9-11 (according to the documented comments of senior Mossadnik [Isser Harel](#)), Eitan was serving as Menachem Begin's "advisor on terrorism". This is the real reason that Rafi Eitan remained in the Israeli security cabinet until 2009 - he is one of the architects of 9-11.

Rafi Eitan was also involved in the 1968 theft and illegal smuggling of nearly 600 pounds of plutonium from a plant in Pennsylvania to Israel for the production of nuclear weapons. As the [Pittsburgh Tribune](#) reported in a series of articles about the stolen plutonium, Eitan is the key suspect:

"Four other Israelis visited NUMEC on Sept. 10, 1968, and met with Shapiro [then-NUMEC President Zalman M. Shapiro, a staunch supporter of Israel] to "discuss thermoelectric devices (unclassified)," according to a Sept. 12, 1968, letter from Bruce D. Rice, NUMEC security manager, to Harry R. Walsh, director of AEC security and property management, seeking AEC approval for the visit.

The four visitors were: Avraham Hermoni, Ephraim Beigon, Abraham Bendor and Raphael (or, Rafael) Eitan.

In their 1991 book, "Dangerous Liaison," Andrew and Leslie Cockburn wrote, "At the time of his visit to Apollo in 1968, Eitan was acting as an agent for Mossad on special assignment to LAKAM

... a shadowy intelligence agency ... born in the 1950s with the express purpose of acquiring nuclear technology by any means."

Soon after the men's visit, 587 pounds of weapons-grade uranium reportedly went missing from NUMEC, according to Udall's papers. "

In a recent article entitled "America's Loose Nukes in Israel," Grant Smith wrote: "To date, all of the uranium-diversion masterminds, financiers, and beneficiaries have escaped criminal prosecution, even as U.S. taxpayers fund a nuclear waste cleanup at the (now defunct) NUMEC Apollo facility."

Eitan's unscrupulous character can be seen in a comment he made to the wife and lawyer for Jonathan Pollard, the captured spy he had managed:

"Eitan told us the only thing he regrets about the Pollard affair is that he did not 'finish the job' before leaving the States. We asked him what he meant by this. Eitan replied, "If I had been at the embassy when Pollard came to seek asylum, I would have put a bullet through his head. There would have been no Pollard affair."

Raphael Hantman a.k.a. Rafi Eitan

"In principle, when there is a war on terror you conduct it without principles. You simply fight it."

– Rafi Eitan to [Ha'aretz](#), February 19, 2010

At SCP Partners Barak worked closely with another Mossadnik named Eitan - Yaron I. Eitan. Although Yaron Eitan looks very much like Rafi Eitan, the relationship between the two Eitans is not known. Rafi Eitan was actually born Raphael Hantman in Mandate Palestine to Noah Hantman from Minsk, Byelorussia. Rafi reportedly has three children, named Yael, Sharon, and Yuval.

Motive, means and opportunity = Mossad did 9-11 ... with help from their friends.

A Conversation About 9/11 – in 1979

Michael D. Evans is an evangelist, writer, and founder of the [Jerusalem Prayer Team](#), whose mission is "to guard, defend and protect the [non-Semitic Khazar] Jewish people...until the redeemer comes to Zion."

"On Sept. 23, 1979, the founder of Israeli intelligence over dinner told me that America was developing a tolerance for terror. **The gentleman's name was Isser Harel, the founder of Mossad Israeli intelligence-he ran it from 1947 to 1963.** He told me that America had developed an alliance between two countries, Israel and Saudi Arabia, and that **the alliance with Saudi Arabia [i.e. where the 9-11 hijackers supposedly came from] was dangerous and would develop a tolerance for terror among Americans.** He said if the tolerance continued that Islamic [fundamentalists](#) would ultimately strike America. I said "Where?" He said, "In Islamic theology, the phallic symbol is very important. **Your biggest phallic symbol is New York City and your tallest building [i.e. the World Trade Center] will be the phallic symbol they will hit.**" Isser Harel prophesied that the tallest building in New York would be the first building hit by Islamic fundamentalists 21 years ago."

Israeli Mossad Agents Lived Next Door to 911 Hijackers

Next Door to Mohammed Atta - Israeli agents were living in Florida and tailing the future death pilots – until their cover was blown.

by Oliver Schröm

Die Zeit Magazine

October 14, 2002

On April 30 of last year the US Air Force sounded an alarm. The security division of the Tinker Air Force Base in Oklahoma City warned of an **“intelligence ring of Israeli art students”**. American law enforcement agencies had earlier learned that *a noticeably large number of Israeli students had applied for jobs at software development and technology firms that primarily served government agencies*. The obvious suspicion was that the young Israelis were members of a spy ring. A specially formed task force, consisting of employees of the DEA, INS and Office of Security Programs, looked into the matter.

The young Israelis were placed under surveillance and their personal details were analyzed by computer. Die Zeit obtained the 61-page final report, according to which, **120 Israelis, organized into cells of four to six persons, formed a tightly organized and efficient espionage network**. A few of the putative students were actually specialists on eavesdropping, radio technology, or counter-terrorism.

The Israelis were arrested, interrogated and subsequently deported. In the world of intelligence, espionage among friends is an everyday occurrence. In this case too many people were involved for the matter to be covered up. But **both the Israeli government and American authorities tried to downplay it**.

Not until after the attacks of September 11 did the consequences of the spy ring become clear. Apparently the agents were not interested in military or industrial facilities, but **were shadowing a number of suspects, who were later involved in the terrorist attacks against the US**. According to a report of the French intelligence agency that Die Zeit examined, “according to the FBI, Arab terrorists and suspected terror cells lived in Phoenix, Arizona, as well as in Miami and Hollywood, Florida from December 2000 to April 2001 *in direct proximity to the Israeli spy cells*.”

According to the report, the Mossad agents were interested in the leader of the terrorists, Mohammed Atta and his key accomplice, Marwan al-Shehi. Both lived in

Hamburg before they settled in Hollywood, Florida in order to plan the attacks. A Mossad team was also operating in the same town. **The leader, Hanan Serfati, had rented several dwellings. “One of Serfati’s apartments was located on the corner of 701st St. and 21st Ave. [sic] in Hollywood, right near the apartment of Atta and al-Shehi”**, French intelligence reported later. **Everything indicates that the terrorists were constantly observed by the Israelis.** The chief Israeli agent was staying right near the post office where the terrorists had a mailbox. The Mossad also had its sights on Atta’s accomplice Khalid al-Midhar, *with whom the CIA was also familiar, but allowed to run free*. The Mossad apparently warned their American counterparts several times about the terrorists, especially about al-Midhar. The American government later admitted that they had received such warnings prior to September 11. But at most that there were attacks planned against American installations outside the United States. [How could this be, when they knew that these “perpetrators” were living *inside* the US?]

Die Zeit has learned that a few weeks before the attacks, Israeli intelligence gave US authorities a list with names of suspects who were staying in the US for the purpose of preparing attacks. Apparently not until shortly before September 11 did the CIA recognize that al-Midhar was dangerous and asked law enforcement agencies to look for him.

[Looks like everyone knew quite well what was going to happen, and both the Mossad and CIA had their reasons for doing nothing to stop it – or perhaps even worse.]
